Care and Use

Take care when removing product from packaging ensuring all packaging is removed prior to use. Wash bowl thoroughly before first use. Base and body are wipe clean only. The bowl is dishwasher safe. To make small adjustments to the balance, unscrew the weight compartment located beneath the weights plate. (Weights will already be located inside this compartment with an extra bag of small weights enclosed for minor adjustments)

KEEP ALL SMALL PARTS AWAY FROM CHILDREN.

Counter-balance the scales by lining up the lower edge of the weights plate with the undersection of the bowl holder.

Weights to compliment the scales are available seperately in metric or imperial measurements. Contact your local store for details.
